

New For 2018!

Online Invoice Viewer and Bill Pay

To maintain our superior level of customer service to our Niemeier's contractors, we are now offering an online viewer and bill pay website that will allow you to not only view but pay invoices online with the click of a button. From this site, you will be able to better view your sales history and current balance as well as pay for invoices at a convenient job by job basis. Curious about approaching your credit limit? Simply log in to see your current credit status!

To take advantage of this new service, you must follow the link (<https://myaccount.niemeyerstone.com/>), submit a login, and wait for your approval and temporary password. It is important you create a password that will be easy for you to remember as *no one* will have access to this password other than you. Once approved you will have full access to your purchasing history including the ability to print and view statements as well as pay them.

We hope you will find this service beneficial and as user-friendly as we have. As always, Niemeier's landscape truly appreciates your business, and we look forward to sharing a successful and profitable 2018.
