CHANGE YOUR VIEW

Look at your backyard. Now Imagine what it could be. At Rosetta Hardscapes we take what nature gives and fashion it into something beautiful, usable and lasting. That means that all of our products are cast in molds made from real weathered stone, with materials of the finest quality, to capture every detail. By their very nature, Rosetta pavers, retaining walls and accessories harness all of the beauty that your home's surroundings have to offer. So that at the end of your project you'll realize that what you see was there all along—it's nature at its finest, in a landscape that you didn't know could look so beautiful.

LEFT: Outcropping, Irregular Steps, Round Fire Pit Kit & Grand Flagstone Shown in Fond Du Lac

ABOVE: This historic fireplace was a part of the original homestead. Homeowners decided to preserve it by incorporating it into their landscape design.

ROSETTA LOOKS BETTER

Not all landscaping materials are created equal. The wet cast forming process results in a smooth, defined surface for a stylish finish. This means that wet cast products can mimic natural stone with remarkable accuracy compared to the often dull look of dry cast.

LEFT: Outcropping shown in Auburn Ridge
ABOVE: A typical dry cast retaining wall

YOUR HOME OUTDOORS

What would it be like to love your backyard? Imagine looking out your kitchen window in the morning with nothing between you and fresh sunlight except the time that it takes to brew a cup of coffee. Open the door, settle in, and take the first sip outside.

DIMENSIONAL
FLAGSTONE
Shown in Slate Gray

GO WITH STRENGTH

Why should we have to live in a world where everything needs replacing? Rosetta's wet cast materials are less porous than dry cast, significantly increasing their ability to tough it out in harsh weather.

THE EASY CHOICE

Our products are engineered for ease of installation and maximum durability. We do our best to ensure that your contractor smiles every time they get to work with Rosetta. Because when your contractor loves their work, it saves you time and money.

Simple lifting tool increases installation speed and safety

Attractive texture, color, and shape

Interlocking heels make walls easy to engineer

Consistent dimensions make installation fast and easy

LIVING OUT BEAUTY

The night isn't going anywhere - why should you? Like a summer evening, these patios were made for lingering.

BELOW: Dimensional Flagstone shown in Fond Du Lac

PLAY IS BEAUTIFUL

The pool-deck is your family's warm weather home and Rosetta products are as perfect for pools as your kids are for water. If they can't get enough aquatic fun, choose a landscape that's a delight for all to play in.

LEFT: Outcropping shown in Lakeshore Blend Custom Color—Shown sealed

BELOW: Outcropping shown in Auburn Ridge

TASTEFUL OUTDOOR DESIGN

Excellent landscape design is like a perfect recipe. When the flavors of each ingredient mix and merge it delights everyone you share it with. When Rosetta Hardscapes products come together in perfect proportions for your outdoor kitchen, all you'll need to get cooking is a grill.

LEFT: Kodah & Dimensional Flagstone shown in Fond Du Lac

BIG CURB APPEAL

Context matters for any type of great art. Your home is a masterpiece. Use Rosetta to craft its perfect frame.

LEFT: Outcropping shown in Lakeshore Blend

BELOW: Kodah shown in Fond Du Lac

COMPLETELY STYLED

A beautiful space without a wall is like a picture without a frame. Wonderful, but incomplete. And since a good frame always flatters its subject, choose a wall that stands out as much as your impressive style.

MORE THAN A PRETTY FACE
 Color is integrated into every grain of every richly textured block, so that it looks natural and won't wear out

THEY'RE SMART TOO
 Blocks are engineered with consistent dimensions so that your project is as perfect as you've pictured

RETAINING, GARDEN & SEAT WALLS

Sometimes a wall is the best way to bring your backyard to life. And if a wall is the way to enjoy your living space, shouldn't it be lovely? When we design a wall block at Rosetta, we pay special attention to the detail of every mold and cast. All of our walls capture the distinct essence of the natural stone that they're modeled after. These walls will be the showcase of your whole project and yet seem so right in your home's environment, you'll get the feeling that it was meant to be there all along.

LENGTH: 2-6 feet
HEIGHT: 6-24 inches

Double-sided Freestanding
Blocks Available

OUTCROPPING COLLECTION

There is a giant difference between Outcropping and your average landscaping wall. The massive size of the Outcropping system makes it visually striking and easy to install, so that your stunning landscape can be finished without frustration.

- Pieces are an eye-catching 2 to 6 feet in length, and 6 to 24 inches in height
- 12 different pieces come together randomly to look like a real stone wall
- Installation guides offer your contractor hassle free installation for a trouble free project

BELVEDERE COLLECTION

Inspired by the rolling hills of the English countryside, the Belvedere wall collection replicates quarried stone with more charm than any other man made product you have ever seen. The only hitch with Belvedere may be that while enjoying your garden landscape, you won't be able to tell whether you're in the suburbs or the Shire.

- 64 unique stone textures look just like well crafted natural stone
- Great for seat walls, pillars, or structural retaining walls
- Consistent dimensions and pre-developed patterns ensure a headache free project
- Coordinating Belvedere Coping and 27" Column Caps available

LENGTH: 6-18 inches
HEIGHT: 3-6 inches

PATIOS, WALKWAYS, DRIVEWAYS

These are your living spaces. And whether you're lounging, laughing, or hurrying from here to there, you have your own style. Rosetta Hardscapes offers a diverse variety of paver styles to suit any taste, from the rugged shapes of flagstone slabs to the modern dimensions of pre-cut stone. Whether you hope for a traditional garden or a contemporary patio, Rosetta has your drive or walkway covered. And since we know you're going to walk all over it, we ensure that our products are durable enough that they won't be worn out by the beauty of your everyday life.

OLD MISSION SHOWN IN AUBURN RIDGE WITH A FOND DU LAC BORDER, CLAREMONT SHOWN IN FOND DU LAC, DIMENSIONAL COPING SHOWN IN SAND

MISSION PAVERS

Wouldn't you rather drive your car onto a cobblestone courtyard in old world Europe than a concrete slab? The Mission Paver collection will transform any drab backyard or driveway into an Italian veranda. For patio use we recommend pairing these pavers with a bottle of your favorite Merlot.

OLD MISSION

Wider joint for permeable applications

- Is that time worn cobblestone or concrete? With Old Mission, it's difficult to tell.
- Wide joints allow for use in eco-friendly, permeable applications.

NEW! NEW MISSION

Tighter joint for non-permeable applications

- Textures and colors of New Mission exude elegance.
- Pavers can be placed together tightly, for a smooth, even surface with an extra touch of class.

The story of the Manthei family business begins in 1930, with Ted and Ernie, strawberry farmers in Northern Michigan. Risk and providence brought them first into the veneer industry, then construction, and finally craft concrete.

HOME & FAMILY: OUR HISTORY

When Jim, Ben and Mark Manthei launched Rosetta Hardscapes in 2007, it was because they wanted to offer you something new. After years working in the construction industry they realized that homeowners and contractors lacked a landscape product option that was both easily installed and accurate in the way that it replicated natural stone. So they created just that.

The first product released by Rosetta Hardscapes was the Outcropping Collection. The groundbreaking retaining wall block system looked like large stacked limestone but stacked logically, so that installation could be twice as fast as its complicated natural stone counterpart. Outcropping is still the only pre-cast, residential scale wall block of its size and type. Welcomed warmly in our home of Northern Michigan, the Outcropping collection and others are now manufactured by partners all over the world.

We understand that you try to maintain an attractive and inviting home, and that the materials used to embellish your landscape are an important part of that endeavor. We also know that excellent landscape contractors appreciate detail and quality. For you, we will continue to strive to make the best looking landscape materials possible. And for your contractors we will provide easily installed supplies and whatever tools we can, for any project of any scale. In short, we will try to learn, improve and grow so that your contractor can love their work, and you better enjoy your home.

This budding company formed within a family business with over six decades of experience. Rosetta is still family owned and operated, and part of an active community of businesses managed by various members of the Manthei family. By listening, learning and clear communication, we hope to grow, serve and enjoy what we do.

Our unique casting process creates landscape stones that are unparalleled in their authenticity

ADDITIONAL INFORMATION

COLOR:

We at Rosetta Hardscapes, along with our media partners, do our best to produce print and digital materials that accurately reflect the true shades and tones of our product. However, we cannot guarantee perfect color matching for project photos, color swatches, or other picture representations.

Because dye is mixed into the raw materials for all Rosetta Hardscapes products, shades and color variations will occur throughout each block or paver. Therefore no product seen in a photograph will be precisely duplicated. We recommend installing Rosetta with materials picked from multiple pallets for optimum color blend.

Rosetta works with manufacturers around the world to provide each geographic market with products suited to its native landscape. Therefore, colors vary by region and the colors available in your area may not be represented in this catalog. You can find out who your local producer is on our website by clicking "Where to Buy" at www.discoverrosetta.com.

EFFLORESCENCE:

Efflorescence is a naturally occurring, chalky, white residue commonly found on concrete surfaces. Unfortunately, this unavoidable chemical process occurs in all concrete products including Rosetta Hardscapes. The presence of efflorescence in no way degrades the integrity of any product. It can usually be removed with efflorescence cleaners and often washes away over time. Rosetta Hardscapes does not cover the presence of efflorescence under warranty.

POLYMERIC HAZE:

Improper installation of hardscape materials or use of certain landscaping sands may result in the presence of polymeric haze. This discoloration can potentially mute the vibrant colors of concrete products. Its incidence is not indicative of the quality of the product and it should not be considered a source of concern for the products durability. Because Rosetta Hardscapes cannot regulate selection or installation of aftermarket accessory materials, we do not warranty the presence of polymeric haze. In general, polymeric haze can be cleaned and washes away over time.

HEAVY EQUIPMENT:

The broad surface dimensions of Rosetta's slab products exclude them from use for vehicular traffic and compaction equipment. The exception to this exclusion is the more traditionally dimensioned Mission paver collection. Both Old and New Mission can be used as driveway pavers and/or finish-compacted. If a compactor is used to aid in installation of Old or New Mission, a urethane pad should be used with the compactor to protect the detailed surfaces of the pavers from damage.

WINTER CARE:

All metal snow shovels and snow blower blades have the potential to damage concrete pavers. All snowplows, snow blowers and shovels used to clear Rosetta products of snow should use plastic blades or guards. De-icing salts will damage concrete hardscapes and should not be used with Rosetta products. Rosetta does not cover damage done by snow removal, de-icing or improper loading under warranty.

We want you to feel comfortable and confident when starting your project. That's why we make sure you have the resources you need to get the job done right. Everything we make, we back with a limited lifetime warranty.

ROSETTA OF MICHIGAN LIFETIME LIMITED WARRANTY

Rosetta hardscape products as manufactured by Rosetta of Michigan are backed by a lifetime warranty from the manufacturer to the original end user, for products used in residential applications. This assurance of product quality is applicable where products have been correctly installed to manufacturer's specifications. Any properly installed hardscape material manufactured by Rosetta of Michigan that deteriorates due to the concrete in the product not meeting the design strength specification will be replaced by the manufacturer. The following items are not covered by this warranty: color variances and the appearance of surface stains resulting from chemical reactions such as efflorescence or differential curing; damage caused by installation; deterioration caused by de-icing salts or fertilizers; damage resulting from sub-grade settlement or movement, hairline cracks that do not effect the structural performance of the product, spalling of less than three percent of the surface area, contact with chemicals or paint, discoloration due to airborne contamination, staining, oxidation, or improper sealing. Products purchased must be registered with the manufacturer within 60 days of end user's purchase for warranty to be valid.

All warranty claims must be made prior to the removal or disposal of the defective product; Warranty claims will be reviewed by a company representative and may require samples of defective product for analysis. Warranty does not include removal, installation or transportation to replace the material. Warranty is not transferable and is extended to the original end user only. Proof of purchase is required.

Please note:

- Actual colors may vary from the color swatches shown in this book. Final color selection should be made from actual color samples, which are available from your local dealer.
- For the most natural appearance, install products from multiple pallets simultaneously. This will create a more blended, natural look.
