51 SLUDGE REDUCER **PELLETS** SUPER CONCENTRATED

General Information: F-51 SLUDGE REDUCER is fortified with specialized bacterial strains that are high volume organic waste consumers. Packed with a broad trace mineral base and an organic catalyst, the productivity of the beneficial bacteria in each pellet is dramatically increased. The pellet itself was specially designed to penetrate deep into the sludge so the dose is not consumed in the water column.

Use F-51 SLUDGE REDUCER to:

Digest Bottom Sludge
Eliminate Odor Causing Contaminants
Stimulate Indigenous Bacteria
Effectively Manage Sludge Bed
Reduce Organic Waste in All Types of Water

Storage: Store in a dry, cool place. Keep out of direct sunlight.

Directions: 125 pounds of F-51 Sludge Reducer will treat 1 surface acre (3 lbs treat 1,000 square feet). Broadcast F-51 Sludge Reducer uniformly over water surface. Apply two (2) - six (6) times per year.

For Optimum Results:

Apply when temperature is 50-90 degrees F;
Dissolved Oxygen Level is over 1.0 ppm; pH is 6-8;
and Alkalinity is less than 100 ppm. Best if used within twelve (12) months of purchase.

Notice: Neither the manufacturer nor seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Read and follow the label directions carefully.
