

SIMPLE. DURABLE. INNOVATIVE.

CAST Timeclocks (CTDTC, CTC)

Old world craftsmanship. . .tomorrow's technology™

CAST Timeclocks - Set the preference for your lighting system

CTDTC

CTC

Description: _____

CAST Lighting offers 2 types of timeclocks an Astronomical Digital timer and a manual Plug-In timer. These timers allow you to set your outdoor lighting system to turn on and off at any preferred time.

CTDTC: _____

The CAST Astronomical Digital Timer plugs into the transformer timer receptacle. It works with all CAST Transformers.

- Calculates sunset and sunrise times
- Options for different schedules on each day of the week
- Display prompts programming
- Digital accuracy to one minute
- Rechargeable battery back-up
- Daylight savings adjustment
- Manual override ON/OFF

CTC: _____

The CAST Plug-In Time Clock has a 24-hour electromechanical system that plugs into the transformer timer receptacle. This works will all CAST Transformers.

- Captive trippers
- Programming resolution of 15 minutes
- Easy to program
- Manual override ON/OFF
